WHAT DOES TRUMP CONTROL THAT PUTIN WANTS?

What Trump Controls	What Putin Wants
Weapons shipments to Ukraine	Drastically reduced weapons shipments
Financial assistance to Ukraine	Drastically reduced financial assistance
Permission for Ukraine to strike into Russia with U.S. weapons	Prohibition on striking Russia
NATO membership for Ukraine	No NATO for Ukraine + Influence no EU
U.S. recognition of Russian territorial gains	Recognition that Crimea and other Russian-occupied territories are now part of Russia
U.S. and U.S.-led sanctions on Russia	Lift sanctions against Russia & oligarchs
Frozen Russian assets (sovereign & private)	Lift as many of these as possible
Influence weapons and military aid to Israel	Rein in Israel's threat to Iran so Iran keeps supplying Russia with drones and arms

WHAT DOES PUTIN CONTROL THAT TRUMP WANTS?

What Putin Controls	What Trump Wants
Discounted oil supply	United States now buys Russian petroleum products via India; Trump cuts out middleman (India), uses cheap oil to offset cost of his tariffs
Ability to continue threatening NATO allies	Ensures NATO states hit their 2% defense spending targets to keep the United States in NATO, and Trump will demand they begin paying to remain under America's nuclear umbrella
Influence over North Korea to continue threatening Japan, South Korea, and Taiwan	Japan, Korea, Taiwan to similarly pay for the protection of living under America's nuclear umbrella
Trading long range missile tech to North Korea in exchange for troops and munitions	Commitment Putin won't deliver missile tech to North Korea to marry range with accuracy to hit the continental United States
Influence over Iran as a military ally	Iran backing off Israel allows Trump to deliver a "double victory" by ending two conflicts at once – the Russia-Ukraine and Israel-Hamas wars

WHERE DOES AT TRUMP-PUTIN
DEAL LEAVE ZELENKSY?
